

Zain Ul Abideen

Software Engineer | Full Stack Web Developer

Phone: +92-309-0281069 | Email: ulabideenz40@gmail.com | LinkedIn: <https://www.linkedin.com/in/zain69> | GitHub: <https://github.com/ZA535>

PROFESSIONAL SUMMARY

Software Engineer and Full Stack Web Developer with **3+ years** of experience building scalable web applications using the MERN stack, React, Node.js, Django, and REST APIs. Experienced in responsive UI development, backend optimization, secure authentication, and API integration. Skilled in **VPS hosting**, **server deployment**, and **CI/CD with GitHub Actions** for production releases. Proficient in **AI-assisted development** using Cursor AI, OpenAI Codex, and ChatGPT. Strong Agile collaborator focused on performance, reliability, and continuous improvement.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Node.js, Python

Frontend: React.js, Redux, React Router, Material UI, Bulma CSS

Backend: Node.js, Express.js, Django, REST APIs, JWT

Databases: MongoDB, MySQL

DevOps: VPS hosting, server deployment, GitHub Actions (CI/CD), build and release automation

Tools: Git, GitHub, NPM, Axios, Jira, Agile Scrum, custom NPM packages

AI Tools: Cursor AI, OpenAI Codex, ChatGPT

PROFESSIONAL EXPERIENCE

Software Engineer - Web Developer (MERN Stack)

Egora Pvt Ltd, Lahore, Pakistan | July 2024 - Present

- Developed and maintained core modules of Egora's POS system (orders, reservations, warehouse, franchise) on the MERN stack.
- Built QR mobile ordering, dine-in/pickup cart logic, and X-Stax payment integration for secure checkout.
- Led Shopify-style customizable store themes with live preview and reusable components via custom NPM packages.
- Automated build, test, and deploy workflows with GitHub Actions; released updates to VPS-hosted production environments.
- Resolved full-stack issues and collaborated with cross-functional teams using clean code practices.

Associate Software Engineer - Web Developer

Hecta Solutions Pvt Ltd, Islamabad, Pakistan | February 2023 - June 2024

- Developed IPTV middleware features across Admin UI, Client UI, and Portal using Django, React.js, and MySQL.
- Improved i18n, dependency upgrades, and performance for scalability.
- Participated in deployment, testing, and release cycles aligned with business goals.
- Managed tasks and bugs in Jira to improve application reliability.

SELECTED PROJECTS

TaskBot - Slack Task Accountability App (Live)

Apsis Grid | <https://apsisgrid.com/> | Node.js, Slack API

- Built a live Slack app with Node.js and the Slack API for task coordination: broadcast assignments, track completion, and view team progress in Slack.
- Implemented targeted task broadcasts, completion tracking, and automatic deadline reminders without extra dashboards.
- Deployed and maintained on VPS infrastructure with GitHub Actions CI/CD for reliable production releases.
- Independent product under Apsis Grid focused on clarity, reliability, and security.

EDUCATION

Bachelor of Science in Computer Science

University of Agriculture, Faisalabad, Pakistan | 2019 - 2023
